Perbedaan Native WhatsApp Manager dibanding Platform Lain

Others Platform

Biaya Berlangganan	✓ Gratis Rp0 untuk penggunaan dasar. Jika langganan Meta Verified (opsional), biayanya tetap jauh lebih murah (flat) dibanding sistem per-user license pihak ketiga.	✓ Dikenakan biaya langganan platform yang bervariasi tiap bulan tergantung paket bisnis, membuat biaya operasional membengkak karena biaya per account.
Multi Agent and Device	✓ Bisa sampai 10 perangkat/admin secara gratis (di jalur App + Meta Verified).	✓ Hanya cocok untuk skala bisnis yang butuh 20+ admin/cs untuk handel 1 nomor
Whatsapp Broadcast	✓ Biaya broadcast transparan transparan tanpa markup karena langsung ke Meta	✓ Wajib TopUp dan ada biaya tambahan (markup) per pesan di luar tarif resmi Meta.
Whatsapp Data	✓ Bisa menggunakan nomor yang sudah ada. Tidak menghilangkan chat, kontak, atau riwayat pesan lama Anda.	✓ Risiko kehilangan riwayat chat jika migrasi antar-vendor dan tidak bisa di backup. Mudah ter-BANED jika unsubscribe dari platform.
AI Automation & Chatbot	✓ Meta baru saja merilis AI Agent global yang bisa ditraining pakai chat masa lalu bisnis Anda untuk balas otomatis 24/7.	✓ Membutuhkan biaya add-on terpisah atau integrasi pihak ketiga untuk AI Chat bot kustom dan memiliki batasan penggunaan.
